How do you define your identity? And what might such characteristics be? Identity constantly shifts and evolves, and therefore our views about who we are and who others are open to change. This theme examines the multidimensional nature of identity and draws on past and present examples, getting us to ponder on what European identity might mean in the 21st century.

The main questions addressed in this workshop are:

### **16:00 (Optional) Restless Youth: Growing up in Europe, 1945 to now**

Visit to the temporary exhibition of the House of European History

In the past 70 years, young people in Europe have gone from being a group to whom history happened, to a group that actually makes history. This exhibition looks at four generations of such young people who came of age at key moments in the European story: the late 1940s, the 1960s, the 1980s and the 2000s. It explores the key experiences of youth; from education and employment, to forging an identity and finding love.

This guided visit will allow teachers to discover the interests of a European Restless youth from 70 years onwards.

Laurence Bragard curated the development of the educational components of the exhibition, including the interactive areas, the learning zones, the family trail and the school workshop. During the tour, she will address all the different educational aspects of the exhibition.
